A note for grown-ups

1. **Go with a grown-up.**
   They choose the place, route, time and weather.

2. **Stay together and on the path.**
   Use only a safe yard, campsite or marked trail.

3. **Look and listen only.**
   Leave every natural thing where it is.

4. **Give wildlife lots of room.**
   Never approach, follow, feed or touch any animal.

5. **Keep plants and finds untouched.**
   Never touch unknown plants or taste anything.

6. **Stay away from hazards.**
   No water edges, fire, roads, steep drops or climbing.

Every hunt is optional. Nothing has to be found.

A window view or an indoor picture hunt works, too.

Stop if anyone feels tired, uncomfortable or unsafe.
